

Rikken Custom

ScanBike was founded in 1993 and has for the last 16 years grown to be the largest magazine for bikers and motorcycle enthusiasts in Scandinavia, with a circulation of approx. 20 000 every second month. Over the years, ScanBike has found stable and loyal readers and is the only magazine in Scandinavia constantly following the biker community, covering everything from the coolest custom builds, biker clubs, parties, music and tattoo. I personally took over the editorship in Norway one year ago and work hard to continually improve the quality of the magazine.

Rikken and his company, Rikken Custom, have been featured in ScanBike several times through these years, where he and his custom builds have been duly presented - most recently in July 2009. Rikken have participated in numerous custom building competitions over the years, and has won many prizes for his beautiful and distinctive builds. In addition to completed custom builds, Rikken designs his own collection of parts, which he now wants a permanent producer of. I can say with certainty that the company Rikken choose as a partner will benefit from this collaboration in many ways. Among other things, ScanBike will do an article on Rikken Custom related to his partners, and we will continuously present the appropriate parts manufactured in the magazine with pictures and text. The producer, of course, will have his name and firm mentioned.

As Editor In Chief of ScanBike Norway it is with pride I hereby announce a sponsorship and cooperation agreement with Rikken Custom, a deal which extends far beyond the borders of Norway.

Sincerely,

Atle Jørgensen
Editor In Chief
ScanBike Norway
